FOCUS OF THE MONTH

For February, we focus on "Expressions of Love & Storytelling" by teaching students how to convey emotions like love, joy, and compassion through their movements, emphasizing storytelling and connection. Use partner work and improvisation prompts like "What does love look like in movement?" to inspire creativity, tying in Valentine-themed mini-performances.

In February, we like to **Share the Love** all month long with our students, families and staff - Look out for special activities!

If you love us as much as we love you, please leave an online review! You can share the love [here](#).
